AUDITING AND DISCIPLINE POLICING

Admission to Programs

These programs are open to students in security related departments and employees in the Border Security field.

Program Mission

This program is designed to develop the competencies of border security personnel. The program develops the understanding of the procedures used in border security operations and builds the skill of communicating with the public during the application of local legislation. On completing this program, the student will have the ability to prepare reports and to use modern technology in controlling baggage and passenger inspection, and freight and mail in accordance with international standards related to mainland, sea and air border procedures.

Program Description

The programs are designed to develop the core knowledge, skills, and competencies required to work as law enforcement officers. Students are provided with hands-on training as staff officers in relevant field departments. Each Diploma is aligned to the Qualifications Framework of the Emirates.

Program Learning Outcomes

In addition to the generic graduate outcomes related to the Diploma graduates of the Higher Colleges of Technology, students, upon completion of the programs, will be able to:

- Function with the basic competencies to undertake the tasks, duties and responsibilities of a law enforcement officer.
- Communicate effectively and concisely relevant criminal law procedures following best security professional practice.
- Apply operational rules and solve problems encountered in the role of law enforcement officer while observing the code of conduct and values.
- Use technology systems effectively to support operational security tasks
