

ACCOUNTING

Admission to Program

Admission to the program is explained in the HCT Admission Policy described in the Academic Policies section of this Catalog.

Program Mission

The Bachelor of Accounting program seeks to produce graduates able to function effectively in managerial and practitioner roles in the specialized field of Accounting. Graduates will have the skills, values and ability to explain, analyze and evaluate complex accounting processes in local and global contexts, while demonstrating the ability to work independently, or in teams, to think critically, solve problems, make recommendations for improvements, and use advanced accounting tools.

Program Description

The Bachelor of Accounting program provides students with the accounting knowledge and skills needed to work as competent accounting professionals. Successful completion of the program will enable graduates to work in a variety of public and private sector organizations. The program imparts sought-after accounting expertise, and instills confidence, through its emphasis on both theoretical and applied state-of-the-art accounting training.

The program offers two distinct concentrations –

Financial Accounting and Managerial Accounting:

For the **Financial Accounting concentration**, students take – ACC 4033, ACC 4043, ACC 4053, ACC 4153 & ACC 4173 elective courses.

For the **Managerial Accounting concentration**, students take – ACC 4023, ACC 4033, ACC 4123, ACC 4133 & ACC 4143 elective courses.

Upon the successful completion of 117 credits, students may commence their Research Project (ACC 4203).

Students are eligible for a one year Work Experiential Learning experience during their study.

Program Goals

To develop graduates who possess the

- Current knowledge and understanding of key areas of the Accounting field, their interrelationship and application.
- Ability to use the Accounting tools, think critically, and conduct applied research.
- Necessary key success skills in business.
- In depth knowledge of the Accounting field and its interrelationship and application across business environments.
