

EMERGENCY MEDICAL SERVICES

Admission to Program

Admission to the program is explained in the HCT Admission Policy described in the Academic Policies section of this Catalog.

Program Mission

The Department of Emergency Medical Services is committed to training the next generation of UAE nationals to the highest international standards of emergency medical care. With an emphasis on evidence based medicine, learning by doing and the latest educational technology, we strive to meet the needs of the community and our sponsors to have UAE nationals trained to provide emergency care to the critically ill or injured in the United Arab Emirates

Program Description

The Bachelor of Emergency Medical Services program is a four-year post-Foundations program preparing graduates for emergency medical care professional practice. In the first two program years students develop an extensive knowledge of health sciences, communication, terminology and emergency medical care up to an intermediate life support level. The final two years of the program develop students' skills to advanced life support levels which include diagnostic, clinical judgment, research, quality and leadership. The program promotes the development of analytical thinking, problem-solving abilities, communication skills, professional ethics, social responsibility, professional citizenship, the ability to adapt to change and respond to challenges in the prehospital and in-hospital emergency settings, and a commitment to lifelong learning.

Students are eligible for a one year Work Experiential Learning experience during their study.

Program Learning Outcomes

Bachelor of Emergency Medical Services

On successful completion of this program the graduate will be able to:

1. Apply theoretical and technical knowledge that incorporate evidence based practice to provide internationally safe, responsible and quality patient care in the emergency care setting.
2. Apply technology and medical innovation through simulation and skills based training in emergency medical care.
3. Demonstrate effective communication and psychomotor skills to manage emergency medical situations in accordance with the relevant Advanced Paramedic clinical practice guidelines (CPG).
4. Apply critical thinking to analyse medical emergency situations and take autonomous evidenced based decision to deliver safe and effective medical care.
5. Demonstrate competency in technical leadership skills to be able to lead and work collaboratively within a multidisciplinary team.
6. Use lifelong learning as a reflective practitioner in order to modify practice and enhance the emergency medical care profession.
7. Apply entrepreneurship and innovation skills to identify and contribute to potential solutions for emerging complex healthcare challenges.
